Formula Hybrid 2018

Ashwa Racing, with much higher hopes and preparations, once again took part in the 2018 edition of Formula Hybrid, after learning from previous performances over the past couple of years. The event took place in New Hampshire, USA from 30th April to 3rd May with 26 teams from across the globe participating in it.

The team flew to New York on 22nd April via Kuwait and Ireland. They also paid a visit to the Consulate General of India in New York, and thanked Consul General, Mr. Sandeep Chakravorty, whose support helped the team in all the issues that arose in the US, including shipping. The team then proceeded towards Plymouth, New Hampshire via Boston.

The event commenced on 29th April, 2018 and went on till the 3rd of May, 2018.

DAY 0: PRE ELECTRICAL INSPECTION

The team decided to take up the optional Pre-Electrical Inspection, which involved judges from the event organising committee going through the circuitry and safety of the car within the rulebook clauses. After having received a few suggestions, the team bagged the pre-tech sticker.

DAY 1: MECHANICAL AND TECHNICAL INSPECTION

The team first went for the mechanical inspection, which was completed with ease due to the prior mock inspections done back at the workshop in college and were also ready for electric inspection by the evening.

On the same day, winners of the "Hit the Ground Running" award were announced. Ashwa Racing bagged 3rd with 94/100 points, out of which the team had scored a commendable 40/40 for overall completeness of the car.

DAY 2: DESIGN AND PROJECT MANAGEMENT PRESENTATION (PMP)

The team cleared electrical inspection and were all set for the static events: Design Presentation and Project Management Presentation(PMP).

PMP - This event is about showcasing how effectively and efficiently the team managed to accomplish the project, within the planned timeline and the limits of personnel and available resources. The team secured a whopping 144.29/150, bagging the 2nd position.

Design- In this event, teams are judged based on decisions behind design aspects of the vehicle, within the rulebook constraints. Innovation in design, justification of OEM selection and implementation of sound engineering practices are focal points of this event. Also, the conceptual knowledge of the team in various subsystems is evaluated. The team got selected for the finals and presented the design to two different panels of judges and once again, bagged 2nd position by scoring 183.24 out of 200 points.

The reminder of static events: Brakes, Tilt and Noise, were cleared without any hassle. The four stickers made the team eligible for the dynamic events scheduled for Day 3.

DAY 3: ACCELERATION

The team took one acceleration run and secured the 2nd position in the acceleration event, with a timing of 11.05s. Also, the drivers from the team were called for a briefing on the rules and the track layout.

DAY 4: ENDURANCE

An astounding endurance ensued; The RZ-X8H ran a commendable 41.5 out of the total 44 laps. This has been Ashwa Racing's best performance in dynamics so far, since the hybrid prototype's inception.

Victory

At the end of the 4 day ordeal, Ashwa Racing was positioned at 2nd place overall among all the teams of the world!

We are grateful to win the prestigious 'Spirit of Formula Hybrid' Award', by General Motors for our display of camaraderie.

The hard work the team put in throughout the past race-season has paid off through this achievement. The group of student engineers with a passion to build a race car drove and steered the hard work to turn the dream into a reality of success.

All in all, a fruitful event that will go down in Ashwa's steadfast legacy: the results mounting an onus on the batches to follow, to improve and work on our overall performance for the upcoming race season! The team returned to it's motherland, victorious.

Well wishers of Ashwa Racing

Ashwa Racing has been extremely fortunate to have highly intellectual, selfless well wishers guide the team through its pursuit to be one amongst the best teams across the globe. One such person is Mr. Dilbagh Gill.

Mr. Dilbagh is the CEO and Team Principal of Mahindra Racing. He has been a regular at the Formula Hybrid event, for the past couple of years. The team had an opportunity to interact with him at Formula Hybrid, 2018 at New Hampshire, where he proved to be a huge moral support for the team providing invaluable advice.

On 22nd May, 2018 Mr. Dilbagh visited our workshop at RVCE. He was accompanied by Mr. Venkatesh, the MD of Uniflex, a sponsor and well wisher of Ashwa Racing. They were greeted by the 2nd and 4th year team members who then were a part of an interactive session with Mr. Dilbagh, who enlightened the team about the various aspects of improving the overall performance of our prototypes and also, the team as a whole.

The team is extremely grateful to Mr. Dilbagh for his continued support and wishes to convey its regards to him!

The Underdog Story

In this month's edition we take a look back at 1996 Monaco grand Prix. The race started with 21 cars but ended with just three running when the checkered flag fell. Olivier Panis started the race at the 14th position by virtue of a disappointing performance given that 'Ligier' was expected to finish in the top 6 before an engine problem restricted his running. After a dry warm-up a torrential downpour completely drenched Monaco. It was damp at the start with Damon Hill leading the way. Halfway into the opening lap Schumacher clipped inside the kerb and slithered into the wall. By the end of 10 laps only 12 cars were left running.

Up front, Hill was supremely unchallenged. He led by 4.3 seconds after lap one, over nine seconds by the end of lap three, and 25 seconds by after lap 20. Hill, fueled with the desire to replicate his father's success, seemed to clinch the title by a fair distance. Unfortunately for Hill, the Renault engine expired up in smoke forcing him to retire. Hill's retirement had left Jean Alesi leading the pack, however he too went on to suffer a suspension issue on lap 60 forcing him to retire, which meant that Panis was cruising out for the first time. Panis went on to clinch the race by 4.8 seconds followed by Coulthard, and Johnny Herbert who hadn't overtaken a single race car for the entirety of the race.

SPONSOR FOCUS

UNIFLEX
Flexible Solutions for the Universe

Universal Flexibles, a distributor and exporter of air conditioner hoses, brake hoses, hydraulic fittings, hose fittings etc has been a product sponsor for Ashwa Racing over the years. The team extends its heartfelt gratitude to Mr. Vnekatesh Iyer, the MD of Uniflex for providing constant motivation and encouragement towards the Ashwa Racing endeavour and their continued support for the upcoming Race Season.

With a motto -“Born to Build” and their highly skilled and committed workforce, Prabha Engineers has proven leadership in sheet metal working from the past 30 years.

Prabha Engineers has been a sponsor of Ashwa Racing since 2007; their constant encouragement and guidance has helped Ashwa Racing achieve greater heights of success.

The team would like to extend its heartfelt gratitude to Prabha Engineers and a special thanks to Mr. Shivkumar for believing in us and for their continued support for 2017-2018 race season.

SPONSOR FOCUS

MAHLE

Driven by performance

Welcoming the title sponsor for the 2018-19 Combustion Race Season - MAHLE Holdings India Pvt Ltd offers innovative mobility solutions that stand for clean air, fuel efficiency, and driving pleasure. The group supports manufacturers as early as in the development of new vehicle generations, not to mention the continuous improvement of series production applications. Proof of their technological leadership is not least to be seen in their successes in motorsport—be it in Formula 1 or in Le Mans. Mahle has also been a constant supporter of student motorsports by sponsoring multiple FS teams across the globe.

Moreover, their innovative products are used in stationary applications, mobile machinery, as well as in railroad, marine, and aerospace applications. And of course, they also supply workshops and engine repair workshops with MAHLE products in original equipment quality.

The team is glad to have Mahle join our family of sponsors.

SPONSOR FOCUS

LOCTITE

The LOCTITE brand, part of the Henkel portfolio since 1997, is renowned for the excellence of its adhesives and sealants. Since the original development of a unique anaerobic technology more than fifty years ago, LOCTITE products have become vital components in many of the machines and products that are at the core of everyday life. The team is grateful to Loctite for their continued support. A special thanks to Mr. Chandra Prakash for encouraging the team and ensuring that the products were provided on time.

Integra is a leading provider of innovative hi-technology products and solutions in the Government, BFSI and telecom space, with a focus on India and Africa and has been at the forefront of innovation and has brought out several class leading products to the domestic and international markets. The team whole heartedly welcomes Integra Micro Systems into our family of sponsors.

Futura is a trusted printing company in Bangalore, committed to providing a high quality, printing experience striving to become a strategic partner with all their customers by providing complete solutions for printing ideas. We welcome Futura Digital as our official printing partner for the 2018-19 race season.

ALUMNUS OF THE MONTH

Diksha Bhagat, a name that needs no introduction. Every member of the Ashwa Racing fraternity knows her and all of her juniors look up to her.

Diksha was an integral part of the X6C batch and belonged to the Engine subsystem. She was also a part of the SMP team. One of her teammates fondly recalls Diksha as “the most badass” SMP member he’s ever come across. Diksha’s contribution to the team, from the SMP front is commendable and she has set the bar too high, for the upcoming batches.

Being the only girl in the team never stopped her from being at par with the boys. Diksha has been a role model for all the girls of our family. She was indifferent about the stereotypical roles defined for boys and girls, in the team, and was never afraid to get her hands dirty, or for that matter drive the car as well. Her perseverance, enthusiasm and dedication goes to prove that she’s a go-getter.

Diksha was an absolute pleasure to work with. She maintained an excellent rapport with not only her teammates, but her juniors as well. While in the team, especially in the final year, Diksha had a fun approach to raise funds. The SMP team of X6C had a friendly competition among themselves to see who raised more sponsorship. This approach definitely helped all the members to work upto their full potential and ultimately raise more money for the team.

Diksha graduated in 2016 and joined Toyota Kirloskar Motor Pvt Ltd. She continues to be an irreplaceable source of motivation for us juniors, You Go Girl!
