वर्ल्डवा RACING

IN THIS EDITION

वशिष्ठा RACING

Dear Readers

We are delighted to let you know that having successfully completed our first Hybrid prototype, RZX5H; we competed in Formula Hybrid 2015 and secured the 7th position.

We also completed the 2015 combustion prototype, RZX5C and is currently on its way to Italy where it will set the track ablaze at Formula Student Italy 2015 in September.

Meanwhile, the design phase of RZX6C and RZX6H have neared completion and the procurement of materials and components is underway.

RZX5-H

The RZ-X5H is the first hybrid vehicle designed and produced by **वईहवा RACING**. The car was showcased in Formula Hybrid 2015, conducted in New Hampshire, USA.

The team faced customs clearance issues as a result of which the car was not present at the first day of the competition. Despite such obstacles, electrical pre-inspection was cleared. This was considered as a remarkable achievement for a first year hybrid team.

वईहवा RACING stood at the 7th position in the engineering design event as well as the project management presentation, Also overall position was 7th out of 17 other International Teams.

RZX5-C

TESTING OF THE RX-X5 IN THE COLLEGE CAMPUS.

CARGO ALL SET TO DEPART FOR SHIPPING.

The RZ-X5C is all set to compete in Formula Student Italy 2015, in the month of September.

The car has left our workshop be shipped to Italy.

BODY PANELS OF THE RZ-X5C. WE ARE EXTREMELY THANKFUL TO FIETECH FOR THEIR CONTINUED SUPPORT.

RZX6-C

Presenting the designs of RZX6-C.
With various newly implemented
components and improvements from
RZX5-C.

Focus of designs have been on
improving dynamics and reducing
weight but also maintaining
ergonomic packaging.

RZX6-H

Designs of RZX6-H are currently under review and preliminary manufacturing phase has begun.

This year with the Hybrid we concentrate on electrical component integration at a better level and battery architecture improvements. Additionally, considerable focus has been made on weight reduction.

SPONSOR FOCUS

बड़े बड़े RACING

UDYOGI INTERNATIONAL is one of the foremost manufacturers and exporters of personal protective equipment. The company joined us as an associate sponsor for the 2016 season.

HAAS AUTOMATION is a leading machine tool builder in the western world, manufacturing a complete line of CNC vertical machining centers, horizontal machining centers, CNC lathes and rotary products. We are delighted to have HAAS AUTOMATION on-board as our associate sponsor

Century Extrusions Limited (established in 1991) is promoted by Mr. M. P. Jhunjhunwala, a first generation entrepreneur. They are one of India's large pure play aluminium extrusion manufacturers. The company joined our team as a financial sponsor for the 2016 season.

SPONSOR FOCUS

SPIRO GEARS helped us with machining of the hybrid car's drive sprockets. They also provided us with financial support towards the team's first hybrid venture.

Alcoa is a global leader in lightweight metals technology, engineering and manufacturing. They are also the world's third largest producer of aluminum. We thank them for providing us with financial support for the 2016 season.

Universal Flexibles is a manufacturer of top of the line quality Hydraulic Hose Assemblies, SS Corrugated Hose Assemblies, Hose Fittings, Adapters and Tube Assemblies. We are deeply thankful for the provision of hoses, fittings and various other components.

ALUMNI OF THE MONTH

Shatath Vasishta

Shatath Vasishta was a team member of **अश्वथ RACING** 2014 batch who worked on Vehicle Dynamics. He is currently open for the core job market and plans to Master in vehicle dynamics.

Sharath was in charge of the Vehicle dynamics and suspension of RZX4. He undertook calculations of suspension force and dynamic parameters in order to select and source rims and dampers. Sharath was also responsible for implementing new methods of designing such as 3D line diagrams for suspension modelling and spread sheet calculators for suspension parameters.

Sharath has helped immensely for the 2015 cars. His suggestions and guidance regarding calculating suspension ride, roll rates and forces, design ideas for new pillow ball housings, upright clamps, gave suggestions on selection of materials for hubs and taught us concept of tolerance during thermal expansion, explained new methods of validation of upright stiffness, and also helped in manufacture of various complex suspension parts.

He has certainly been a major contributor to **अश्वथ RACING** knowledge transfer and sustainability.
