SEASON 2015 -16

अश्वा RACING
LIVE IT. LOVE IT. RACE IT.

IN THIS EDITION

Dear Readers,

With the finish of 2015, we now are gearing up for next season's first event, Formula Student India - 2016.

FSI 2016 is going to be held from the 23rd - 28th January 2016 at Buddh International Circuit, Greater Noida.

In this edition:

- ⇒ Updates on progress of combustion and hybrid cars
- ⇒ Meritor's Ashwa workshop visit
- ⇒ The companies who have joined our family of sponsors and
- ⇒ The alumni of the month.

As on November 23, 2015 Ashwa Racing adds another feather of achievement on its cap by celebrating its 12th anniversary. This could not have been achieved without all our sponsors and well wishers. Thank you for having faith and belief in us.

2016 combustion team

The 1st batch of Ashwa Racing (2005)

For the 2016 hybrid race season, we aim to clear the electrical scrutiny in the first shot. Clearing scrutiny would allow us to compete in dynamics events and ensure a top 5 finish at the competition. The 2016 hybrid event is scheduled to be held from 2nd to 5th of May, 2016.

RZX6H

2016 Hybrid team

We have validated the theoretical calculations with practical values that we made for the 2015 hybrid. The running X5, post event, was used for extensive data acquisition.

The engine was tuned to match the current requirements so as to improve our acceleration timing by a sec.

The current required for that power was acquired from the Agni95R motor performance graph.

The current was measured while testing.

The scans of our wheel rims, cam lobes and the coordinates of our motor mounting points were obtained with the aid of a CMM.

This was carried out at Meritor.

As a result, we were able to design accurate motor mounts.

The data obtained by the cam lobe scans of the Pulsar engine helped us to carry out 1-Dimensional analysis with the use of Ricardo Software.

RZX5-C

The RZX5-C is now back in the workshop from its trip from Italy.

Our Faculty Advisor Dr. Ravindra S Kulkarni

Besides, we have our semester end papers this month.

With a car to assemble for testing phase. There is a definite number of long sleepless nights ahead.

Meritor's visit

A sponsorship meeting between Meritor CVS India Pvt. Ltd. and Ashwa Racing took place on the 23rd of October, 2015.

Representatives from Ashwa Racing - Karan Chatrath, Engine, Head of Sponsorship, Marketing and PR, 4th year team; Aditya G, Engine, 3rd year team; Aishwarya L U, Sponsorship, Marketing and PR, 3rd year team; Sunit Jagadeesh, Sponsorship, Marketing and PR, 2nd year team.

- Mr. Pradeep Mirji and Mr. Vinod representatives from Meritor CVS India Pvt. Ltd. came down to our workshop.
- They were given an update of the Italian Event and how Meritor's support helped us to convert to a dry sump system.
- Ashwa's future plans were also discussed.
- The Hybrid car was showcased and the architecture was explained.
- Plans of Meritor helping us in thermal analysis of the brakes and bodywork of the car were discussed

The team is thankful towards Meritor CVS India Pvt. Ltd., Mr. Pradeep Mirji and Mr. Vinod for interacting with its members. A long lasting partnership with Meritor is of great value for the team.

Manufacturing Status

Milled base plate oiled and cleaned for chassis welding.

Manufacturing Status:

- ♦ Laser cutting of chassis tube profiles completed at Magod Laser.
- ♦ Solid fixtures and base plate milled.
- ♦ Laser cutting of sheet metal fixtures completed.
- ♦ Assembly of fixtures for chassis welding has begun.

Some heavy duty lifting

Chassis welding in progress

Sponsor Focus

tdps is generating

TDPS offers AC Generators for various applications which are specially designed and tailor-made to suit the needs of the customers based on their requirements and specifications. They provide different types of generators for different prime movers along with the range of output capacity. We thank TDPS for their support in our endeavour.

Meritor is a leading global supplier of drivetrain, mobility, braking and aftermarket solutions for commercial vehicles and industrial markets. We thank Meritor for their continued support.

Roehm GmbH is one of the leading chucking tool manufacturer in the world. RÖHM Clamping Technologies offers solutions for the automobile industry, machining industry, the energy sector, rail vehicles and aerospace industry.

We thank RÖHM Clamping Technologies for supporting and encouraging us to excel beyond our capabilities.
