NOVEMBER 2016 NEWSLETTER

ashwa RACING

www.ashwaracing.com
www.facebook.com/ashwa.RACING

Dear Sponsors, Supporters and Fans,

Formula Hybrid New Hampshire indeed turned out to be the moment Ashwa longed to cherish. A lot to learn, a lot to venture and a lot to celebrate for.

Finishing 2nd in the design event, 2nd in the Project Management Presentation and securing the 4th position overall, left us all with a smile.

So after bagging the 4th position overall at Formula Hybrid, the combustion team was looking to match this result at Czech Republic.

With about 40 teams participating, it was a competitive event.

2nd position in the cost event. This was our first podium finish and things looked good at that point. Overall we stood 21st. Had it not been for the engine breakdown, things would have gone smoothly.

The team is now gearing up for the 2017 season. Valuable lessons learned will be kept in mind and momentum in the static events will be maintained.

All of this could be achieved only because of the faith the sponsors have kept in us and supported us. A warm thank you to all the well wishers.

RZ-X7H UPDATE

We have successfully registered for the Formula Hybrid 2017 competition as team number 016!. We scored 20 bonus points for an early submission of Structural Equilency Spreadsheet (SES) document bringing us one step closer to our aim of a podium finish in the event. With the mechanical assembly of our car complete we are in complete, synchronisation with our race plan.

We aim to complete the final assembly by 20th November. The car scrutiny is running hand-in-hand with the assembly phase so as to ensure the car is completely safe for the testing phase which will commence on December 20th post our semester exams. In process we will be able to save precious time and make complete use of the timeline that is set.

HENKEL SEMINAR OCT-2016

Starting from your iPad to your nespresso capsule, to our own race car and all the way to Airbus A380, they all have one think in common.

Henkel.

Thank you Henkel India for providing us with your products from time to time and standing alongside us in our journey.

Special thanks to Mr. Hiremath Mahantesh (BDM) and Mr. Harisha Kumara AP (TCS) for giving a wonderful presentation and spending quality time with us at our campus last week. It helped us gain a better insight into the company and the products available which will go a long way towards choosing the right products to go on our car.

In India, Henkel operates in two business areas: Adhesive Technologies and Beauty Care. The LOCTITE brand, part of the Henkel portfolio since 1997, is renowned for the excellence of its adhesives and sealants. Since the original development of a unique anaerobic technology more than fifty years ago, LOCTITE products have become vital components in many of the machines and products that are at the core of everyday life.

MANUFACTURING DAY 2016

RZ-X2 for display at HYATT REGENCY,PUNE

We thank Bharat Fritz Werner (BFW) for giving us the opportunity to display our 2012 combustion prototype (RZX2) at the Manufacturing Day 2016 conference. This gave us the chance to interact with many manufacturing and automobile companies.

Special thanks to Mr. Ravi Raghavan, Mr. Praful Shinde and Mr. Vijay for this opportunity.

ASHWA - ASM COLLABORATION

American Society for Metals was founded in 1913, in Detroit, Michigan, as the 'Steel Treathers Club' . This club was rechristened as American Society of Metals (ASM) in 1933 to deal with all aspects metals. In 1983, the Society expanded its technical scope, beyond metals, to include other engineered materials like composites, polymers, ceramics, and electronic materials. The Society's Head Quarters is in Materials Park, Ohio State, USA. (35 miles east of Cleveland).

The Bengaluru chapter of ASM has been in existence for about 8 years. It has about 35 members drawn voluntarily from prominent Industries and Institutions in and around Bengaluru.

The chapter is actively involved in conducting regular technical seminars and exhibitions on Heat treatment, Foundry, Forging, welding and other developments related to Materials & Processes at Bengaluru, to update the professional and student community. We would like to thank Dr. J R Nataraj, Associate Professor, Mechanical engineering, RVCE who is a member of ASM bengaluru chapter, for introducing us to the ASM team.

We would also like to thank V Babu Sathian(Chairman), Rahul Masurekar(Secretary), K.L Srirama(Treasurer), K.S. Subraya(Member), B. Ashok(Member), S. Seetharamu(Member) from the ASM team.

Team ASHWA has gained a lot of knowledge in the welding training organised by the ASM team and conducted by Martin and Sriram. We would like to thank Martin and Sriram, for their certified training course.

R.K Engineering which is into manufacturing boilers for pharmaceutical companies, conducted welding training for 45 days. We would also like to thank the entire ASM team and R.K Engineering for their support and

SPECIAL THANKS

joe's
CUSTOMIZING / PERFORMANCE TUNING / SERVICE

Joseph Raja Singh, who is our favourite Joe uncle, our engine pianist once again played an instrumental role in getting our engine up and running. Joe sir has been very kind and has always helped us maintain the health of our engine. Right from the servicing to tuning of the heart of the vehicle, Joe's support has been a key factor in our better performance each year.

We are thankful for his invaluable contribution towards our endeavour and hope to maintain this relationship in the years to come.

SPONSOR FOCUS

With over 3 decades of experience in the industry, today Werner Finley are the leading manufacturers for process cooling equipments in India with a rapidly growing global presence. The company's core technology is based on heat transfer using the vapor compression refrigeration cycle. We create top of the line Products that include Water Chillers, Coolant Chillers, Hydraulic Oil Chillers, Panel Air Conditioners, Coolant Filtration Systems, and much more. We thank them for extending their support as an associate sponsor for the 2017 race season.

Phillips Corporation based in Maryland USA with operations in the US, China, India and Europe is a 55 year-old global supplier of manufacturing technology, products and services; primarily focused on CNC machine tools (metalworking) and additive manufacturing. In India Phillips Corporation through its subsidiary Phillips Machine Tools India Pvt Ltd represents industry's leading global brands such as Haas, Hermle, SHW, Zeiss, Sunnen, Tsugami, Maple, Kent etc in India. We thank Philips Corp for their support as an associate sponsor for the 2017 race season.

Founded in 1988, Duflon is one the world's leading fluoropolymer processors and supplier of components in PTFE. In addition to PTFE, Duflon is also a premium supplier of components in other polymers, rubber mouldings, metal castings, metal turning as well as semifinished materials. Duflon has its main site in India and dedicated sales and distribution centres in USA and UK. In addition, Duflon has sales representatives all over the world to service its existing client base consisting of blue chip corporates. Over the last 10 years Duflon has gained great experience in the production of castings in various metals and alloys as well as elastomers, whether they are supplied independently or lined, coated or bonded with Fluoropolymers. We thank Duflon for their support as an associate sponsor for the 2017 race season.

BFW

BFW was born in 1961 to realise the dream of a young economy that was on the cusp of industrialisation. Ever since, we've been at the heart of manufacturing. BFW supported the growth of the Indian industry by creating the machine tools vital for industries, across verticals - from plastic buckets to aerospace projects.

At BFW, we ensure progress at every step, with every innovation. We would like to thank BFW for joining on board as a gold sponsor for the 2017 race season.

Multipak Electronics are engaged in manufacturing a wide range of printed circuit boards. They are manufacturer, importer and exporter of Printed Circuit Boards in different varieties like Single Sided & Double Sided (0.15 to 3.2 mm. thick) Glass Epoxy Circuit Boards, and Rigid Multi Layer (up to 12) Printed Circuit Boards and Metal Core PCB's (for LED's)

We thank them for extending their support through manufacturing of the two layered PCB's, which will be used of the 2017 Hybrid and combustion prototype.

Just as things started getting a little hectic, we had Royal Brothers spicing things up for us by turning our manufacturing trips into adventures with their rental bikes. We welcome Royal Brothers to our family with a big thank you for putting a smile on our faces by making our journeys less cumbersome.

Royal Brothers is India's Largest and South India's First RTO Authorized Self-Ride Bike Rental Service Provider, operating in 6 different cities.

ALUMNI OF THE MONTH

ANKIT SAHU

We are happy to have Ankit Sahu as the alumnus of the month for October 2016. He was an active member of the 2009 batch who extensively worked on the vehicle dynamics as well as the manufacturing phase of the project. His support provided for the manufacturing of the air intake for the 2016 season has been invaluable.

His company, Objectify Technologies is an Engineering service for fabrication of metal and plastic products using additive manufacturing (AM) technology and also providing complete rapid prototyping solution operating from New Delhi .

We thank Ankit for his extensive contribution towards the Ashwa Racing endeavour and helping us with the progress in the manufacturing of our custom designed air intake manifold.
