Launch of the beasts

On the 13th of January, Ashwa Racing hosted its Launch Event in the college premises to officially unveil the new prototypes. Sponsor representatives, well-wishers, friends and families of all team members were invited to grace the occasion with their presence. The Launch Event serves as a wonderful platform for interaction & knowledge transfer and creates a sense of togetherness among everyone involved in the project.

The Launch event is not just a mere unveiling for the team. It's the day that pays off for all the efforts & sleepless nights that the team has put in. Every launch event is an important page in the history of Ashwa Racing and a conscious display of glamour and passion. Every member of Ashwa Racing is immensely proud of its glorious legacy. Along the way, as much as we learned about the latest technology and honed our managerial skills, we also understood the true essence of building a team : team spirit and the subtle art of unity.

On the stage...

The event commenced at 10am, with the lighting of the sacred lamp and honouring our college dignitaries for their constant support towards our project. Then Sweekruth Shetty, 4th year Team Captain gave us a brief overview of the 2017 Race season. The tech specs and design of each of our prototypes : Combustion, Hybrid and Electric was presented in a detailed manner. The whole new concept of Open Source Vehicles and their further application as a smart mobility alternative was also presented on stage.

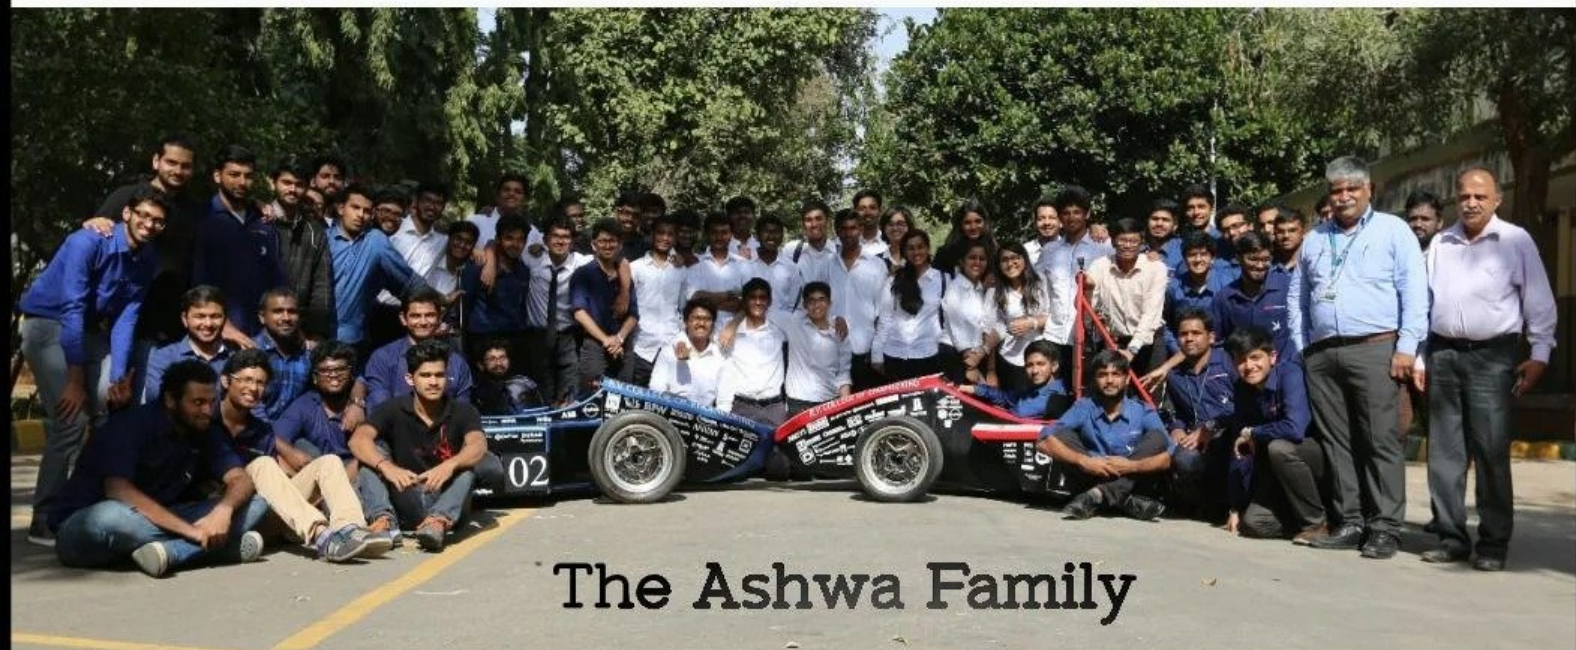

Our major pillars of support, our partners, were warmly thanked for their constant support and motivation, with a token of appreciation. They were presented with a memento and a customised **अश्वा RACING** calendar. Few partners also took to the stage and expressed their thoughts about our project and their experience of working with us. The final year team members (RZ-X8C batch) was felicitated for their invaluable contribution to the growth of Ashwa Racing. In conclusion, our faculty advisor, Dr. R.S. Kulkarni gave a heartfelt talk thanking the gathering before proceeding to the rollout.

The Ashwa Family

Taking steps towards Smart Mobility

Ashwa Mobility Foundation has officially set foot into two new domains - The Electric Racecar Vehicle as well as the Open Source Vehicle concept, which were both showcased on the momentous occasion of the rollout. The team strongly believes that this will mark the beginning of our quest towards mass mobility engineering solutions in the near future.

New advances

RVCE's Ashwa Racing team launches 1st electric race car

BENGALURU: After nearly 15 years of successfully building race cars and taking part in international competitions, the Ashwa Racing team of the RV College of Engineering on Saturday launched its first prototype of an electric race car. The student club's 13th combustion engine race car named AMF RZX8-CO and fourth hybrid engine race car named AMF RZX8-HY have also been launched.

The Ashwa Racing team poses with its fourth hybrid racing car AMF RZX8-HY.

Electric Vehicle

Built closely around the Open Source philosophy characterized by modularity, flexibility, scalability as well as collaborative platforms and diverse communities.

OSV Concept

To design, manufacture and test an energy efficient, scalable, fully connected and personalizable vehicle based on open source principles that overcomes common problems in urban transportation.

Reaching out to the masses

Students launch 3 race cars

SPECIAL CORRESPONDENT
BENGALURU

Ashwa Racing, a brand under Ashwa Mobility of RV College of Engineering, Bengaluru, on Saturday launched three new race cars on the combustion (AMF RZX8-CO), hybrid (AMF X8-HY) and electric (AMF RZX8-ELE) platforms for the 2018 race season.

They would be competing in national and global events in the coming months.

The combustion vehicle (210 kg without driver) development is headed by team captain Sreekruth Shetty, project manager Rakesh H.N., chief engineer Prateek Bhustali. The racing hybrid vehicle (300 kg) development is headed by team captain Asif Khan, project manager Subhas B.U., chief engineer Uday Naik and chief communication officer Tarun Kasu.

The electric vehicle (200kg) development is headed by team captain Pranav Nanda, project manager Rahul S.D., chief engineer Gautam Singh and chief communication officer Sriv-

atsa Deshpande.

The combustion and electric divisions would be competing in Formula Bharat, which will be held in Coimbatore in Tamil Nadu from January 24 to 28, 2018.

The team would like to extend its warmest regards to Digvijaya News, Raj News, TV9, TV5, Public TV, Deccan Herald, Prajavani, Suvarna News, The New Indian Express, The Hindu and News 9 for publicising our hard efforts, which forever will mean a lot. We hope the rapport shall sustain in the future years to come.

Formula Bharat 2018

📍 Kari Motor Speedway, Coimbatore

The 2018 Combustion prototype - RZ-X8C, participated in Formula Bharat - 2018. The event was held from January 24th-28th, 2018 at Kari Motor Speedway, Coimbatore. Apart from the combustion category, Ashwa Racing also participated in the concept electric challenge - the first of its kind at Formula Bharat.

The team cleared the technical inspection towards the end of Day-1 and in doing so, was 3rd in line to clear technical inspection at the event.

Day-2 was filled with static events throughout the day with the team clearing tilt and brake test in its first attempt and noise in its second.

The team participated in the dynamic events throughout the 3rd day. It set competitive timings in skidpad and autocross and set the all time record for the acceleration event at Formula Bharat!

With a timing of 4.259s in acceleration, Ashwa Racing's RZ-X8C is currently the fastest FSAE car to be built in India. Towards the end of Day-3, Ashwa Racing also participated in the Business Presentation finals which was held at the

center-stage in the presence of the event organisers and all the participants at the event.

The final day of the event - Day-4 was filled with both happiness and disappointments. With a podium finish in its sight, the team's hopes came crashing down when the car broke down during the endurance event. Albeit this misfortune, the team went on to win 4 accolades at the event:

- 1) Acceleration: 1st (Combustion)
- 2) Business Presentation: 2nd (Combustion)
- 3) Business Presentation: 2nd (Electric)
- 4) Cost Event: 3rd (Combustion)

Jan 2018

Indian Machine Tool Manufacturers' Association (IMTMA) organized its flagship IMTEX FORMING 2018 at the Bangalore International Exhibition Centre (BIEC) from 25 to 30 January 2018 in Bangalore.

IMTEX FORMING 2018 was a significant exhibition for South East Asia with the presence of leading national and international manufacturing firms from the metal forming sector. It was a greatly expanded fair which featured all aspects of forming technologies, predominantly sheet metal forming. This exclusive business-to-business event attracted Indian and foreign exhibitors who offered a range of technologically innovative manufacturing and engineering products and applications.

Ashwa Racing was privileged to have its partner - Pegasys Systems provide the team an opportunity to display its Hybrid prototype RZ-X7H at their stall at IMTEX. The prototype caught the eye of the crowd and also provided the team an excellent opportunity to explain our project to various industrialists across the globe and dignitaries from the trade commission of India; interacting with various companies and expanding our network ensuring that Ashwa Racing is now promoted as Ashwa Mobility Foundation. Ashwa Mobility Foundation is now taking steps to mark its presence amidst industry professionals. It has grown along with the changing demands, by expanding the project and showcasing and discussing its innovations with the world.

The team is thankful to Mr. Nitish Kati, MD of Pegasys Systems, for encouraging such fruitful collaborations.

SPONSOR FOCUS

LAPP GROUP

Lapp India, a subsidiary of the Lapp Group is a leading supplier of integrated solutions and branded products in the field of cable and connection technology. They are the pioneers in introducing the concept of “Reliably connecting the world” with their unbeatable range of cabling products and solutions. The team extends its heartfelt thanks to Lapp India for coming on board as a product partner for the 2018-19 Hybrid Race season.

MERITOR

Meritor is a leading global supplier of drivetrain, mobility, braking and aftermarket solutions for commercial vehicle and industrial markets. With more than a 100-year legacy of providing innovative products that offer superior performance, efficiency and reliability, the company serves commercial truck, trailer, defense, specialty and aftermarket customers around the world. We welcome Meritor to our family of sponsors for the 2018-19 combustion Race Season.

GIGAVAC®

ADVANCED SWITCHING SOLUTIONS

GIGAVAC is the world's leading contactor manufacturer designing and manufacturing all high power relays, power contactors, and DC disconnect switches at their state of the art factory in Carpinteria, California. GIGAVAC's extensive line also includes compact high voltage relays and high voltage reed relays for specialized DC and RF application requirements. The team would like to thank Gigavac for their support towards the team by providing battery disconnects used on the Hybrid prototype.

ALUMNUS OF THE MONTH

Shamveel, fondly nicknamed Shaama, was a member of the Brakes and Logistics team of the 2017 batch of Ashwa Racing. He was a dedicated member of the team, striving hard to ensure that the team is always boosted up in order to provide its best at any given event. Apart from significant contributions in the development of the brakes subsystem, Shaama, being the selected driver of the car, spent sleepless nights during the testing phase, ensuring that the year-long efforts of his team were done justice to, at the event.

He has been one of the best drivers in Ashwa and we got the opportunity to have our car fine-tuned by his driving experience.

However, tensed be the situation, he ensured that the team did not lose its calm and kept focusing on solving the issue.

Juniors who worked under him found an inexpressible amount of ease & comfort in seeking guidance and tips on the technical front as well as the knack of handling an FSAE car on tracks. His passion and love for the team could be seen in every ounce of effort he invested into the project and the bond shared with every one of his teammates.

Above all, his simplicity and down-to-earth nature is something the entire team at Ashwa Racing admires. It is very difficult to not possess any self-pride for a person of his stature. His humble nature and politeness is something very difficult to achieve and shall continue to inspire all the upcoming batches at Ashwa.

If one was asked to find a person who is extremely friendly, sweet and humble, who is hardworking and passionate about excelling at what he does, who is always there to raise the spirits when the morale is low no matter what may be the situation, without a doubt the only person that comes to our mind is Shamveel.

He also came down to our most recent endeavour at Formula Bharat 2018, guided the team to go past difficult challenges. Post the completion of the course in the project, it becomes extremely difficult for anyone to get involved in the project's day-to-day activities, however Shamveel made sure that he was present with the team in the time of need. Right after the launch of the prototypes.

Shaama, today we fall short of words to express our gratitude towards your support.

Thank you so much for improving our stand and making us achieve this position. Our endeavour would not have been remarkable without your involvement.

The car misses you, and more so does the team. Thank you once again for all your efforts and we wish you all the very best in your future endeavours.
