SPONSOR FOCUS

Magod lasers, situated at Jigani, Bangalore have supported us with the laser cutting of our chassis fixtures and that of the fixture base plate for the past ten years.

We thank them for their support and encouragement because of which we have been able to complete our car on time.

Mallar Group has exceptional manufacturing facilities that are effectively handled by experienced workforce in synchronization with the management to accomplish the set targets. They maintain a high standard of quality in all manufacturing procedures to give the best to esteemed clients. They have made their presence felt in the market largely because of the exceptional quality of products and the professional approach by the team.

We would like to thank Mallar Group for extending their valuable support for the 2015 race season. Their expertise in the field of fabrication has resulted in better chassis manufacture in shorter lead times.

Molex is manufacturer of electronic interconnectors. The name Molex stems from their first product which was made out of an industrial byproduct called Molex.

We are thankful to Molex for providing us the connectors for the 2015 cars.
