Recruitment

There was an overwhelming turnout of freshers for the preliminary rounds of recruitment, to join the Ashwa family. The students were tested on basic aptitude, following which the selected candidates during the Personal Interview round.

The recruitment process aims to give the right set of students an opportunity to be a part of the project, hence revolves around their commitment, dedication and passion to innovate in the field of student motorsports. This was put to test during the kart event held on the 15th of October.

The kart event has been an Ashwa Tradition and through the years, a platform of ideas, hands-on experience and immense fun.

The new recruits are given a task to build a basic push kart and take part in a day-long event comprising of technical as well as managerial sub events, giving them a great opportunity to bond with their team members and kick start their journey in Ashwa Racing.

Visitors at the workshop

BILL FORGE

On the 27th of September, the team of Bill forge paid a visit to our workshop. It was a pleasure to take them through a series of on going activities, providing them with an opportunity to view the team's efforts in designing and Fabricating the 2018 racecars.

The interaction lasted for more than an hour, paving way for various discussions including their interest to engage with the team on multiple industry-institute partnering activities like industrial visit, internship, seminar & community outreach, which is precisely what the team looks forward to do, inorder to bridge the gap between academics and real life applications and challenges.

We hope to continue this partnership between Ashwa Racing and Bill Forge for many more years to come.

BILL FORGE
YOUR PROACTIVE PARTNER

IMPEL CARGO

Impel Cargo, our official Logistics partner has been very supportive of the Ashwa Racing endeavour right from the time of association.

On the 8th of September, Karthik Sir & Venkatesh Sir took time off their busy schedule to visit us at our workshop, to meet the team.

It was an immense pleasure to show them around the workshop, introducing the team members and discussing about Ashwa Racing's future goals.

An insightful session of interaction with them reinforced the core beliefs of the team - Passion is the only necessary driving force to achieve one's goals.

BFW Manufacturing Day

Bharat Fritz Werner (BFW), a leading manufacturer of machine tools, partnered with Manufacturing Today magazine, to present Manufacturing Day 2017. The day-long conference was conducted with an intention to impart knowledge on today's manufacturing ecosystem, and give participants a platform to discuss and share valuable thoughts with the eminent industry leaders on implementing digitization, skill development and innovation in the Manufacturing industry. Held on October 5 at Hotel Westin, Gurugram, the event was attended by the distinguished dignitaries and key industry personnel.

Ashwa Racing members were invited to participate in this prestigious event, and were provided with an opportunity to present our organization - Ashwa Mobility Foundation and our future goals amidst world-class Industry professionals from the Manufacturing Industry.

The team would like to thank BFW for providing us this wonderful opportunity to interact and network with industries, for the second time in two years.

Registered for Formula Hybrid

2018 Formula Hybrid team list

HYBRID

	Car No.	Institution	Team Name	Country
1	1	Milwaukee School of Engineering	Moze Motorsports	United States

13	20	Rochester Institute of Technology	Hot Wheelz Formula SAE	United States
14	24	University of Houston - College of Technology	Team Mototron	United States
15	25	Boston University	Boston University Racing	United States

”

After months of relentless efforts, we've finally officially registered for the Formula Hybrid event. This has certainly got the team's adrenaline pumping. Having registered now, the document submissions have begun, and we're all excited to start gaining points. Formula Hybrid has definitely kept us on our toes so far, and will continue to for the next six months. We love the pressure! Keeping with the present momentum, we look forward to knocking off deadline after deadline; and making the most of the rest of the exciting race season.

- Suhas B U - Project Manager - X8H

Formula Student ELECTRIC

”

Electric cars are not going to take the market by storm, but it's going to be a gradual improvement.

-Carlos Ghosn

The end of the age of the internal combustion engine is in sight. There are small signs everywhere: the shift to hybrid vehicles is already under way among manufacturers.

Under the Paris Agreement at the UN Climate Conference earlier in May 2017, India declared that only electric cars will be on sale in 2030. In light of this, there is a conspicuous push by the government to move away from fossil fuels and to embrace electric technology.

Hybrid technology uses two sources. An ICE comes in handy when the battery runs out of juice. Given the alarming depletion of fossil fuels is a conundrum of global dimensions, the need of the hour is a drastic minimisation of carbon footprint-the end of the road for fossil fuel powered engines.

Purely electric powertrains gain their place as the next milestone in Ashwa's automotive peregrinations - an exciting and noble pursuit that is greener, and loaded with modern technology.

As a precursor to the FS Electric event in 2019, that the team aims to take part in, we look forward to participate in the Formula Bharat Electric Concept Challenge in the month of January 2018.

Objectives of the event:

1. Provide a platform for Indian teams to build Electric.
2. Mentoring and guidance on aspects of designing and manufacturing with a lead time of 15 months to build a full fledged prototype that can compete on a global scale.

SPONSOR FOCUS

The "Number 1" quality spring maker in India, Stumpp, Schuele & Somappa has 10 manufacturing plants capable of producing more than 4,000 varieties of springs. SSS is the largest quality spring maker for the automotive and various other industries in India.

The team is grateful to SSS Springs for extending their support for the 2017-18 Race Season.

BFW was born in 1961 to realise the dream of a young economy that was on the cusp of industrialisation. Ever since, they've been at the heart of manufacturing supporting the growth of the Indian industry by creating the machine tools vital for industries, across verticals - from plastic buckets to aerospace projects.

The team is glad to be associated with BFW yet again this year, and would like to whole heartedly thank them for their extending their immense support as a financial sponsor for the 2017-18 Race Season.

SPONSOR FOCUS

Incorporated in 2007, Tuflite is a manufacturer of polycarbonate sheets catering to the roofing industry for more than a decade. In the few years they have been present, they have grown to become a multinational with offices in India, Africa and China.

The team would like to thank Tuflite for coming on board as a product sponsor for the 2017-18 hybrid race Season.

Star Cement is the largest manufacturer of cement in the North East of India constantly aiming to provide utmost satisfaction to the consumer through best quality and customer care.

The team had the opportunity to reconnect with Mr. Rahul Chamaria, an alumnus of Ashwa Racing, who was delighted to see the progress made by the team over the years.

We are delighted to welcome Star Cements to our family of sponsors and hope to strengthen this partnership in the future years to come.

ALUMNUS OF THE MONTH

Mohammad Hannan Chisti, the Project Manager of the first hybrid team of Ashwa Racing which fabricated the RZX5H in the year 2015 is well known for his passion towards racing and his dedication towards the project throughout his tenure. His contribution towards the team's progress made everyone realise the importance of the post of the Project Manager in Ashwa's endeavour.

Hannan is known for his outstanding technical, managerial as well as interpersonal skills. In his 4 years at Ashwa Racing, he has been a part of 6 prototype construction efforts and has participated in 4 national and international Formula SAE competitions.

His role varied from macro responsibilities like delegation and management of operations like designing, manufacturing, finance and sponsorship efforts to detailed aspects, displaying enormous endurance and resourcefulness

His consistency in work and character inspired his team to an outstanding 7th place finish which made Ashwa the highest ranked student hybrid racing team in India.

Hannan never hesitated to take up tedious jobs and was at the forefront to take greater responsibility. His ability to negotiate and improvise on the situations have served Ashwa splendidly in building prototype racecars and competing in global competitions.

He is a part of the Alumni Council to mentor the team in its Finance operations and his involvement in Finance has greatly made the operations more convenient for the present teams. He was also appointed as the Judge for the Cost Event in Formula Bharat 2017, held in Coimbatore in January 2017.

He was, is and will always be one of the most fondly remembered member of Ashwa for his role in getting Ashwa on the progress ladder. There is certainly no substitute for the dedication which he possesses.

Thank you Hannan for inspiring us and helping us move ahead year after year.

Video Testimonial

Mr. Dilbagh Gill is the Team Principal of Mahindra Formula E Racing, an alumnus of R. V. C. E., and a long-time supporter of Ashwa Racing. We were introduced to Mr Dilbagh Gill through Mr Venkatesh, the MD of Uniflex in 2015. Every year, Mr Dilbagh Gill pays the Hybrid team a visit at New Hampshire, USA during the event. No matter what the outcome of the event is, the team is always left in awe of meeting such a distinguished and accomplished alumnus of thier college!

Click below to watch Mr. Dilbagh Gill share his experience with the team!

Mr. Hubert Reilard, Hon'ble President of Indo German Chamber of Commerce and ex-Managing Director of EFD Induction, has been one of the strongest pillars of support for Ashwa Racing, right from its inception. With his years of experience in the Industry, Mr. Hubert is one of the mentors of the project and has always been an inspiration to look upto. Click below to watch Mr. Hubert Reilard share his experience with the team!
